Carol Johnson

carol.johnson@email.com | +1-206-555-0103 | Seattle, WA

PROFESSIONAL SUMMARY

AI Research Scientist with 9 years specializing in reinforcement learning, generative models, and large language models. Published 12 papers in top-tier venues (NeurIPS, ICML, ICLR).

SKILLS

Python | PyTorch | JAX | Reinforcement Learning | GANs | Diffusion Models | LLMs | GPT | RLHF | Transformers | CUDA | C++ | Research | Academic Writing | Experimentation

PROFESSIONAL EXPERIENCE

AI Research Scientist - AI Labs (2019 - Present)

- Pioneered RLHF techniques for aligning large language models, contributing to internal 70B parameter model.
- Published 8 papers on generative models at NeurIPS, ICML, and ICLR.
- Mentored 5 junior researchers and interns in deep learning research.

Research Scientist - University Research Lab (2015 - 2019)

- Developed novel RL algorithms for robotics control tasks, achieving state-of-the-art performance.
- Collaborated with industry partners on applied AI research projects.

EDUCATION

Ph.D. Computer Science (AI) | MIT (2015)

B.S. Computer Science | Caltech (2010)
