Grace Lee

grace.lee@email.com | +1-312-555-0107 | Chicago, IL

PROFESSIONAL SUMMARY

Data Engineer with 6 years building scalable data lakes, ETL pipelines, and analytical platforms. Experienced with Spark, Airflow, and cloud data warehousing solutions.

SKILLS

Python | Apache Spark | Apache Airflow | dbt | Snowflake | BigQuery | Redshift | Kafka | Flink | SQL | Scala | AWS | GCP | Delta Lake | Data Modeling

PROFESSIONAL EXPERIENCE

Senior Data Engineer - DataHub Inc. (2021 - Present)

- Architected petabyte-scale data lake on AWS using Delta Lake and Apache Spark.
- Built 50+ production Airflow DAGs for data orchestration across 10+ source systems.
- Implemented real-time streaming pipelines with Kafka and Flink for fraud detection.

Data Engineer - Analytics Corp (2018 - 2021)

- Migrated legacy ETL processes to dbt + Snowflake, reducing pipeline run time by 70%.
- Developed data quality frameworks catching 95% of data issues before reaching dashboards.

EDUCATION

M.S. Information Systems | Northwestern University (2018)

B.S. Computer Science | University of Illinois (2016)
