Zoe Harrison

zoe.harrison@email.com | +1-206-555-0126 | Seattle, WA

PROFESSIONAL SUMMARY

Machine Learning Engineer specializing in recommendation systems and personalization with 6 years experience. Built systems serving billions of users at top tech companies.

SKILLS

Python | TensorFlow | Spark | Collaborative Filtering | Matrix Factorization | Deep Learning | Feature Engineering | Hadoop | Kafka | Flink | AWS | Scala | A/B Testing | Experimentation | SQL

PROFESSIONAL EXPERIENCE

ML Engineer - Recommendations - StreamMax (2020 - Present)

- Built deep learning recommendation system increasing user engagement by 25%.
- Implemented two-tower neural network for candidate retrieval at billion-scale.
- Designed experimentation platform running 200+ simultaneous A/B tests.

Data Scientist - ShopAI (2018 - 2020)

- Developed collaborative filtering algorithms for e-commerce personalization.
- Improved recommendation click-through rate by 18% through feature engineering.

EDUCATION

M.S. Statistics | University of Washington (2018)

B.S. Mathematics | University of Michigan (2016)
